

Christmas tree 3D card

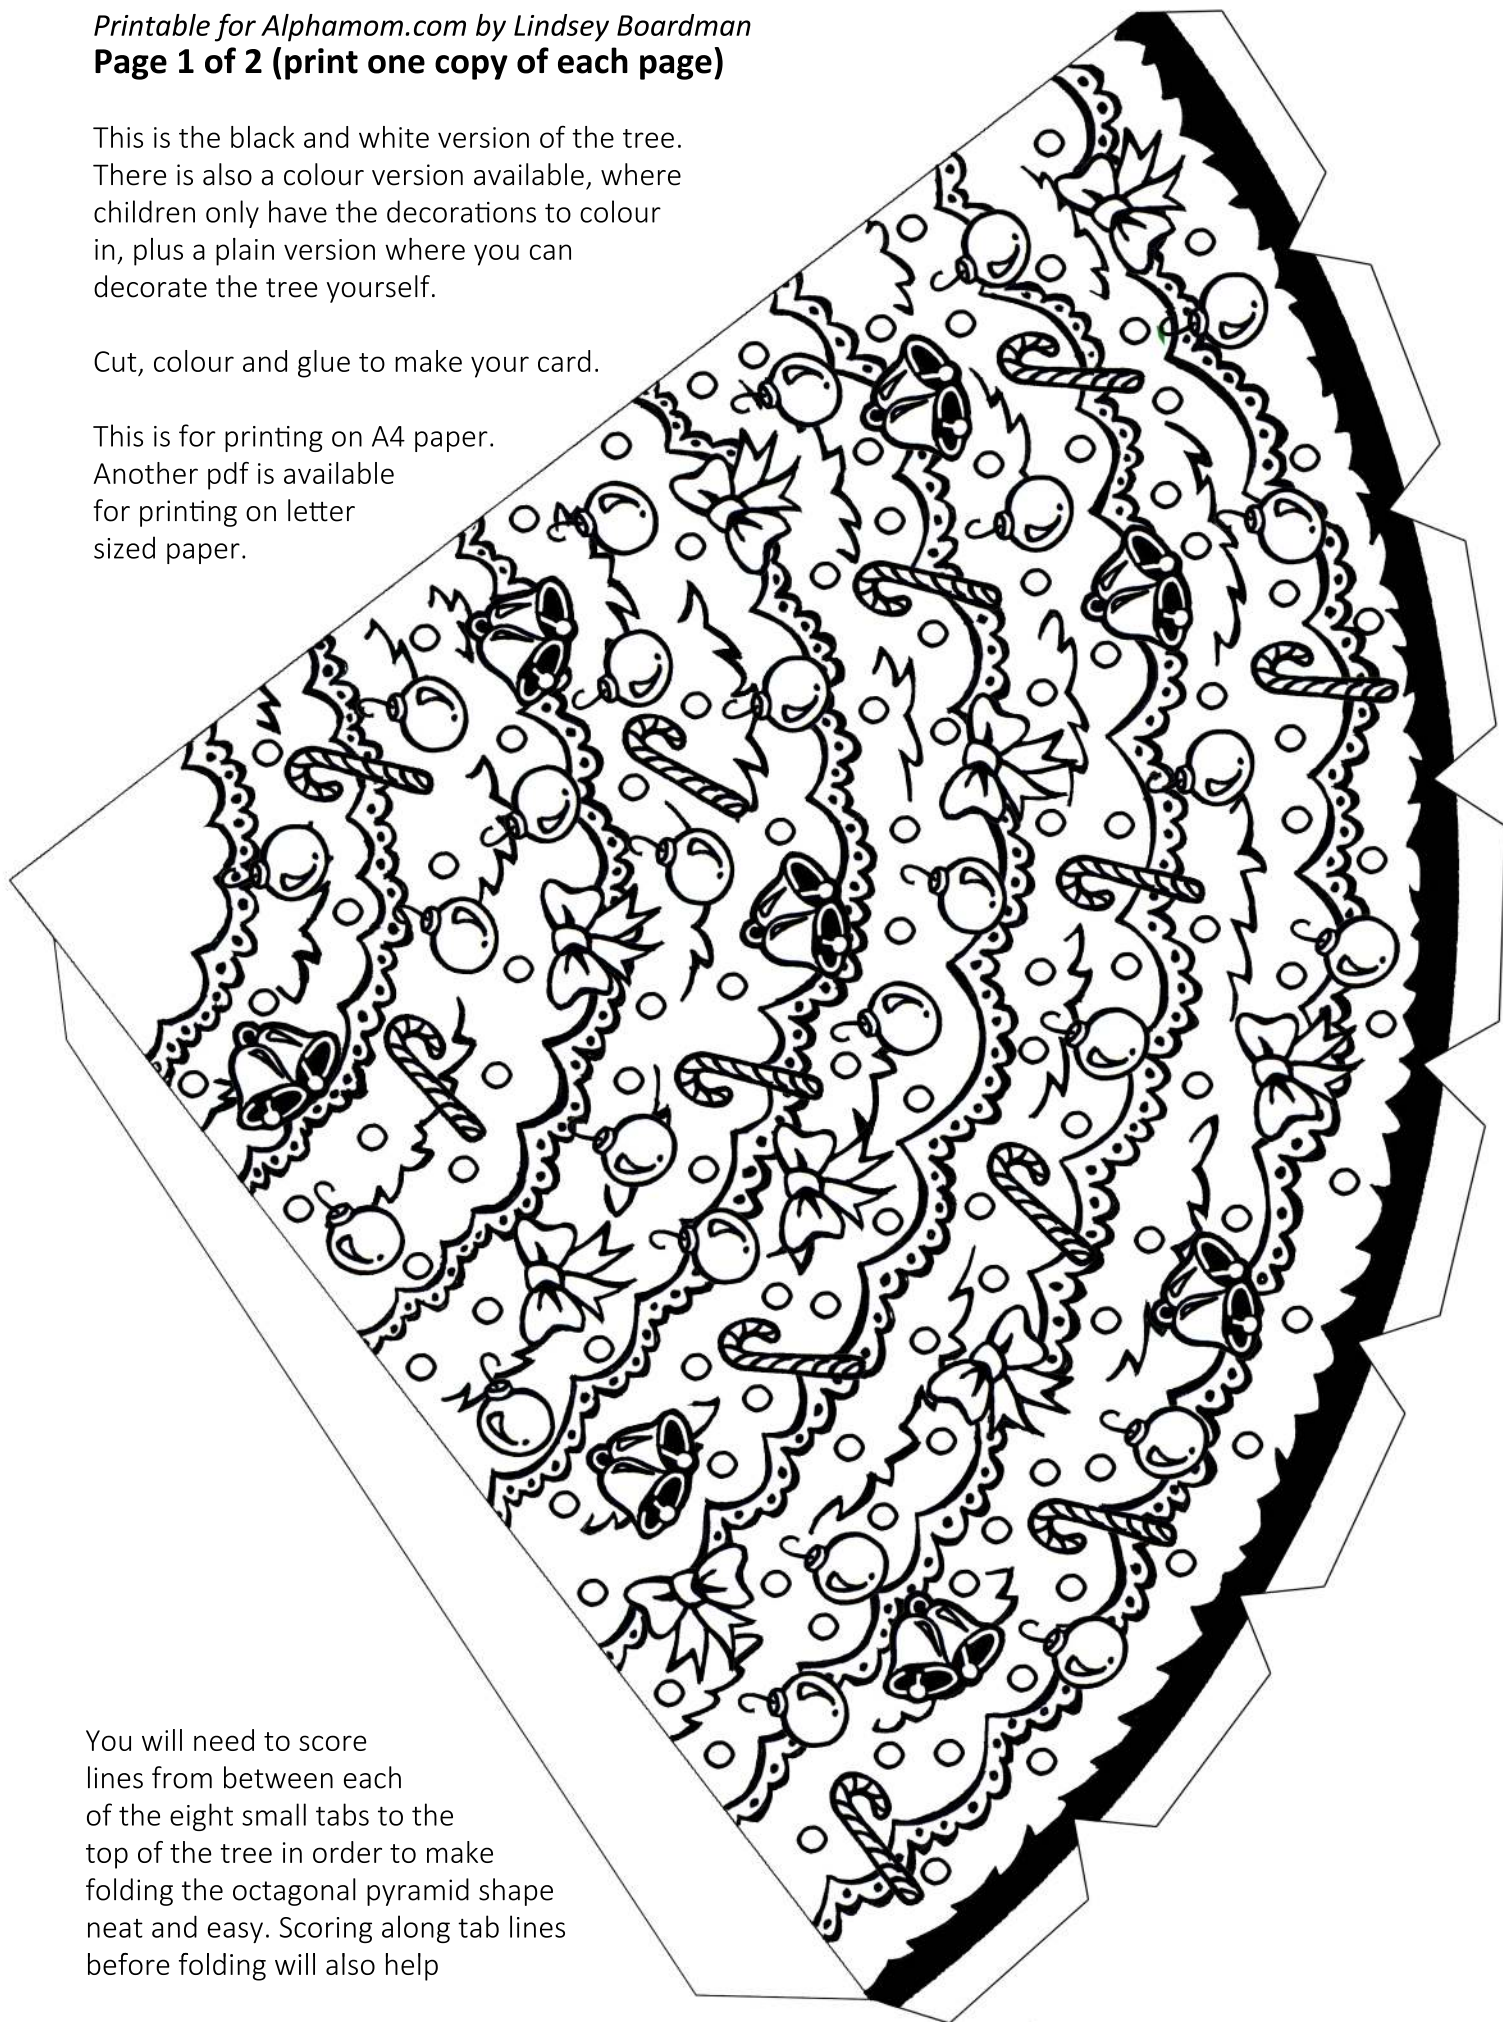

Printable for Alphamom.com by Lindsey Boardman

Page 1 of 2 (print one copy of each page)

This is the black and white version of the tree. There is also a colour version available, where children only have the decorations to colour in, plus a plain version where you can decorate the tree yourself.

Cut, colour and glue to make your card.

This is for printing on A4 paper. Another pdf is available for printing on letter sized paper.

You will need to score lines from between each of the eight small tabs to the top of the tree in order to make folding the octagonal pyramid shape neat and easy. Scoring along tab lines before folding will also help
