

Christmas tree 3D card

Printable for Alphamom.com by Lindsey Boardman

Page 1 of 2 (print one copy of each page)

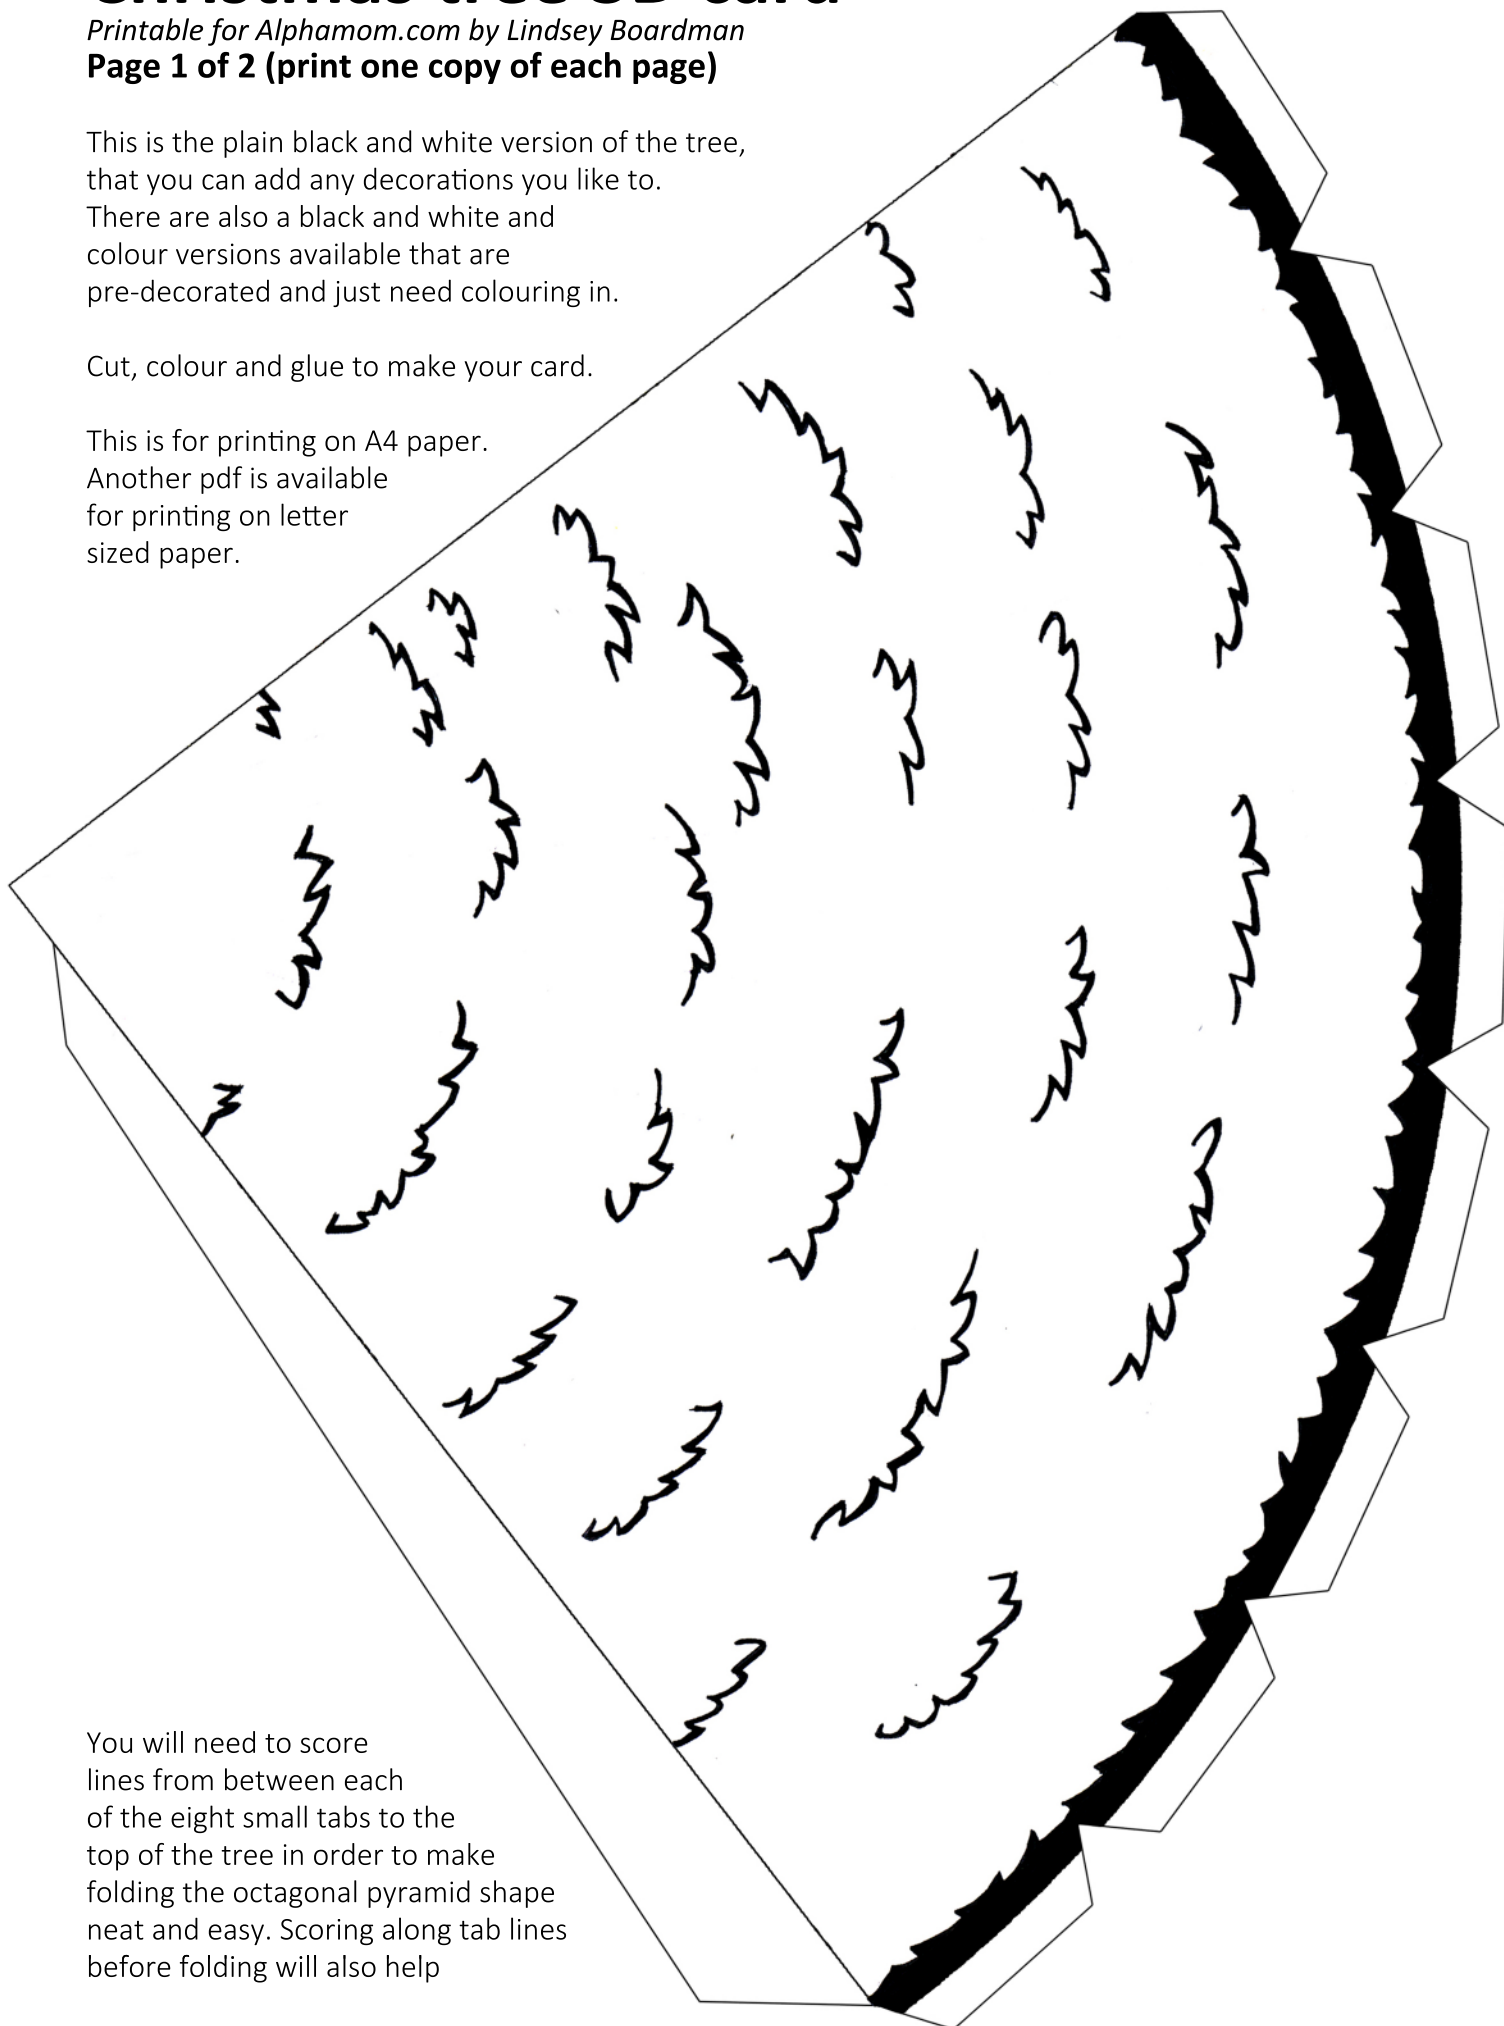

This is the plain black and white version of the tree, that you can add any decorations you like to.

There are also a black and white and colour versions available that are pre-decorated and just need colouring in.

Cut, colour and glue to make your card.

This is for printing on A4 paper.

Another pdf is available for printing on letter sized paper.

You will need to score lines from between each of the eight small tabs to the top of the tree in order to make folding the octagonal pyramid shape neat and easy. Scoring along tab lines before folding will also help
